 INTRODUCTION
 =====

Since I am having to use speech recognition software as I have shared with you that I have to do with writing any document basically more than "thank you so much for your email". I am writing this memo because ultimately judges want to see things in writing and so I am writing this no matter how in level 10 pain (the highest level from the medical industries viewpoint) I am experiencing right now.

For the statements that I am about the use, I need to use standard language that I use in lots of places including but not limited to letters that I have written and published on one of our websites:
<http://www.openletters.info/>

It is my strongest hope, desire, and goal to not sound or be rude, unkind, or to show any disrespect as I make my following remarks.

It is also my strongest hope, desire, and goal to communicate with you as truthfully and clearly as I possibly can so that you would understand what I am trying to say to you and thereby no misunderstandings between us develops any more than it already has.

To that end if you believe there is a misunderstanding or something does not make sense to you, please, please, please communicate with me in what ever is the easiest way for you to communicate with me.

I heard your message from 2016-02-24 which has the details of:

[2016-02-24 08:33:11] *** Missed call from GOV-Appeals & State Hearing Section-LAURA POS 8+18007438525. ***
 [2016-02-24 08:34:25] *** Voice message, duration 00:37 ***

ISSUE 1

=====

You stated that I did not send the medical documents as an attached file but that I just spoke about them. With all due respect that is not the case. As part of my policies and procedures I checked the email after it is sent to make sure that I have in fact attached the "PDF" document and I clicked on it to make sure that it opens fine and that I have not made a mistake in sending the wrong document. In all of the emails that I have sent to your government body I have followed each and every one of the steps diligently and excellently.

I called and spoke with "La France Toliver"
<LaFranceToliver@dpss.lacounty.gov>, her direct phone number is 15629088669 and confirmed that she had received all the medical records that I had sent at the same time in the same exact email that I had sent to your office and she had received it just fine and was able to open the documents just fine. I also asked whether she would be willing to have her office fax you any document that your office is "unable to read"? She said that she was willing to do that. Just a heads up her normal work hours are Monday through Thursday.

I am attaching the newest excuse note which states that I can be out of work until March 31, 2016. That file's name is:
20160223_RC_MEDICAL_EXCUSE_NOTE_DR_JAFFERI.PDF

I am doing something I normally do not do and that is to send a request through the email system for a receipt of when it was received as well as when it was accessed or read. Or, if you would prefer to just respond to this email by hitting the reply button I will know that you have received it.

I have in this document the history of my communications with your office, <SHDCSU@DSS.CA.GOV> and any response that I have received from that email address. This includes but is not limited to those emails that <SHDCSU@DSS.CA.GOV> email address was the "To" as well as the "Cc". I am basically resending what I wrote in all the emails because of the phone conversation that I had with you with the details of:

[2016-02-23 15:07:24] *** Call to GOV-Appeals & State Hearing
Section-LAURA POS 8+18007438525, duration 11:45. ***

They begin with the farthest back in time at the bottom of the document and work to the most current up at the top. I have included the header information (which in my case has something like "This email is being written on February 24, 2016 AKA 2016-02-24 at 12:05 (Pacific Military Time, PMT). It is not an automated email or response." I am not including the footer information (since that does not change).

Each communication is separated by the
//////////////////////////////////// both on the top and on the bottom.

I am also resending all medical documents that I had sent previously within all of these other emails.

=====

ISSUE 2

=====

On Wednesday February 24, 2016 I missed two phone calls. They looked like they might have been the calls from the judge. I did something I do not

normally do which was to call back the number and asked what have I reached? The person answering the phone said: "state hearings".

It appears to me that this entire process is seriously broken. My first attempt in having the hearing postponed was an email with the date and time stamp of: February 18, 2016 AKA 2016-02-18 at 15:12.

I attached my doctors excuse note to that email which was named: 20160217_RC_MEDICAL_EXCUSE_NOTE_DR_JAFFERI.PDF

It is clearly not my fault that I received a call from the phone number: "state hearings".

I am now making a kind request that your internal records indicate that it was not my fault that I received that call. This statement has several additional steps but I will dispense with those so that I am using less words but the end of that statement is a formal demand that your internal records indicate that it was not my fault that I received that call.

I am extremely concerned and frustrated that your Communications System is such that your office is "unable" to open and read "PDF" documents that I am able to open and so is "La France Toliver" <LaFranceToliver@dpss.lacounty.gov> able to open.

For all the evidence available to me I can see that the delay of that entire process brought about a scenario of what happened in this entire "ISSUE 2". I pray that when the judge hears this case that he will rule that this kind of activity should have some extreme penalty so that the offending agency would not be able to get away with that in the future.

=====
CONCLUSION
=====

Laura - POSITION NUMBER 8 - I have seen since our initial phone conversation in December 2015 I have heard, seen and found you to be exceptional in all that you do. Obviously, the things that I have spoken about are clearly out of what you do and that are related to whoever or whatever handles your office's incoming emails. If I offended you in any way please accept my apology.

If you have any questions whatsoever please do not hesitate to give me a call.

Mr. Colaco,

The statement I was referring to was the document you provided which excuses you from activity by your doctor until 3/2/16. No new statement is necessary although you can attach the documents provided in this email if you wish to do so. When you call for a postponement at (800) 952-5253, you will need to provide your doctors statement as proof that you are postponing for medical reasons. I have attached both documents for your convenience.

Dear La France Toliver:

=====
INTRODUCTION
=====

Since I am having to use speech recognition software as I have shared with you that I have to do with writing any document basically more than "thank you so much for your email". I am writing this memo because ultimately judges want to see things in writing and so I am writing this no matter how in level 10 pain (the highest level from the medical industries viewpoint) I am experiencing right now.

=====
ISSUE 1

=====

Thank you so much for your clarification statement of: "The statement I was referring to was the document you provided which excuses you from activity by your doctor until 3/2/16. No new statement is necessary although you can attach the documents provided in this email if you wish to do so."

Thank you so much for your clarification statement of: "I have attached both documents for your convenience."-as to which documents you meant.

=====

ISSUE 2

=====

Thank you so much for your statement of: "I apologize for the confusion in my email to you on Thursday afternoon."

I accept your apology and you are forgiven.

=====

ISSUE 3

=====

Thank you so much for your clarification statement of: "It is not my intent to make things difficult for you."

I have known that to be the case since my first phone call to in December of 2012. Since I could not speak with you about it before today, Monday, February 22, 2016 it was the best way I could figure out how to handle the situation. I also thought that since what you had to do involved higher management I thought they might have told to what to write me.

Since I continue to be unaware of policies and procedures of the Los Angeles County department of public social services and now the state of California department of social services in this entire process of appeals in just appears that these processes are putting burdens on individuals at a time when they have the least capabilities of handling those burdens. Of course when I am speaking about in this case is my own level 10 pain and having to go through the steps to postpone my hearing.

As far as I'm concerned this should never happen again with anyone else in the state of California. One of my "prayers" the word that judges like individuals to use as to what they would like the judge to do for them, have a judicial ruling on, or to reach some judicial ruling on the behalf by the "plaintiff" or the aggrieved party.

=====

ISSUE 4

=====

I see so many ways that this entire process could be improved so that these burdens are not put on individuals like myself.

There are policies and procedures that are in place here but seem to be treated as high grade military secrets. Obviously, I do not believe that they should be treated as high grade military secrets.

I am greatly saddened to say this:

"Just like I have seen so many things that are very broken in the organization that you work for I see the same thing in the appeals process

and of course I wanted to where ever I can do from a legal standpoint to fix it."

I am doing something I normally do not do and that is to send a request through the email system for any receipt of when it was received as well as when it was accessed or read. Or, if you would prefer to just respond to this email by hitting the reply button I will know that you have received it.

=====
CONCLUSION
=====

I have always heard, seen and found you to be exceptional in all that you do, I just got very confused. If I offended you in any way please accept my apology. Thank you again for all that you have done for me and on my behalf since December of 2012.

If you have any questions whatsoever please do not hesitate to give me a call.

I am writing this memo because ultimately judges want to see things in writing and so I am writing this no matter how in level 10 pain (the highest level from the medical industries viewpoint) I am experiencing right now.

Thank you so much for the statement of: "Good news, you can postpone again" and whatever effort it took for you to accomplish that, I really appreciate it. Thank you so much for your very kind and thoughtful statement of: "I am very sorry to hear of your diagnosis." Thank you so much for the statement of: "Please call (800) 952-5253 and request your postponement." =====
ISSUE 1
=====

I am completely, totally, overwhelmingly confused about your statement:

"you will need to provide your doctor's the statement to the State showing the doctor excusing you until the date indicated on your Doctor's notice."

For the statements that I am about the use, I need to use standard language that I use in lots of places including but not limited to letters that I have written and published on one of our websites:
<http://www.openletters.info/>

It is my strongest hope, desire, and goal to not sound or be rude, unkind, or to show any disrespect as I make my following remarks.

It is also my strongest hope, desire, and goal to communicate with you as truthfully and clearly as I possibly can so that you would understand what I am trying to say to you and thereby no misunderstandings between us develops any more than it already has.

To that end if you believe there is a misunderstanding or something does not make sense to you, please, please, please communicate with me in what ever is the easiest way for you to communicate with me.

Did you open the attached document for my excuse?

Was it sufficient?

What I'm about to share with you is totally germane to your email and my confusion about it.

Gail my wife and I went through a horrible nightmare that I believe no American should go through that involved malfeasance and abuse of power by both following portions of our legal system which included the following Los Angeles County agencies: the sheriff's department, the district attorney's office, superior courts, adult protective services, elder abuse unit, county counsel's office. That is why I believe I have shared with you before that I am doing everything that I can do to bring two billion dollar class action lawsuits against what the assistant district attorney was constantly trying to bombard us with: "the prosecution team".

That ordeal began on March 11, 2012 and ended on September 30, 2013. After taking advantage of our one and only opportunity to replace our judge whom I nicknamed Saddam Hussein judge number one (a statement that has not been appreciated by Lawyer friends). As I have shared with you he was the dictator of the country I was born in, Iraq.

That 18 months nightmare centered around whether we could any parts of the approximate 1000 pages of subpoenaed documents on my mother in laws medical records. During those 18 months I spent a great deal of time discussing with my alternate public defender and Gail's two attorneys (the two gentlemen but I told you we paid about \$33,000 to) every possible aspect of medical records, whether we can subpoena doctors, whether we can make them come to court to testify about what they told us in conversations which we had with them mostly over the phone. I am sure you will not be surprised when I tell you that they did not want to be recorded just like employees of the Los Angeles County department of public social services.

That 18 months of persecution sadly made me an expert about how the legal system interacts with our Medical System and for me to say that that interaction is seriously broken is the understatement of the millenia.

So, when I say to you I have no idea what your statement meant in practical terms I am not saying anything but the truth.

Please, please, please help me understand where you are possibly trying to get me to do. Better yet would you kindly write my doctor a letter and let him know what you would like him to do. Please remember that my doctor is part of high desert health system which is part of the Los Angeles County department of Health Services. I do not know if her title is ceo but the highest ranking person there and her e-mail address is as follows: "Beryl Brooks" <brbrooks@dhs.lacounty.gov>. You can use this memo as my permission to contact her and get from her anything that you need. She and I and some of her staff have had more than one phone conversation about how they can improve different aspects of various parts of their organization. She unlike her boss Dr. Katz and his staff at the department of Health Services have been willing to talk to me and be open to my suggestions. Dr. Katz and the department of Health Services is going to be on what I have called "my infamous list" to bring a one billion dollar class action lawsuit against.

=====
ISSUE 2
=====

You desperately need to know about the two doctors appointments that were part of the medical records that I had already sent you as attached documents.

The first appointment for February 23, 2016 was set up months ago. Because of my hospital stay with a discharge date of January 27, 2016 the hospital created another doctor's meeting on February 17, 2016. So, when I was there the nurse wanted desperately to cancel my appointment for February 23, 2016 but my doctor was fine with me keeping that meeting. Please see the directly below attached document and look at page three of three for both of those appointment dates and times.

20160127_OLIVEVIEW_MED_CTR_DISCHARGE_PAPERS_PG1-3.PDF

I bring up this issue because from my experience only primary care doctors are comfortable in signing documents. So if you would like me to get him to do something that I will need your letter sent to my e-mail address as well as the email address of the administrator "Beryl Brooks" <brbrooks@dhs.lacounty.gov> I imagine no later than 5:00 PM on Monday February 22, 2016.

Of course I can walk in to their urgent care department at any time. However, it may be months before I can see my primary care doctor again.

ISSUE 3

For the record I have not appreciated the about three hours that it has taken me to write this memo to share all the things that I have shared into it.

The name of the document that she sent is named:

Colaco, Robert -SOP, attachments and filing.PDF

I am also attaching my medical records showing that I visited the various medical institutions that I talked to you about during my phone call with you. I am doing so to show good faith and to prove what I was saying to you is accurate. Please feel free to show and use it within LA DPSS. Obviously, I am already potentially accomplishing that by sending sending this document and it's attachments to "Michael Guerra" <michaelguerra@dpss.lacounty.gov>.

20160214_OLIVEVIEW_MED_CTR_DISCHARGE_PAPERS_RC_CHEST_PAIN_PG1-2.PDF

Please look at the "current date" on page one and the "Appt. dates" that are on page two just like I had shared with you.

20160214_HIGHDESERT_RC_CHEST_PAIN_LEAVING_AGAINST_MED_ADVICE.PDF

The directly above document is my evidence of what I told you about going to OLIVE VIEW_UCLA with my statement written statement of:

"I am taking this action because I do not trust AV hospital or Palmdale regional & I am going and to OLIVE VIEW_UCLA."

I believe these medical records will prove what I'm telling you is

accurate. I also believe that they are sufficient to prove where I am currently at on a medical basis.

As I stated the reason that I need all the documents that pertains to my case beginning on August 17, 2012 the very first time that we walked into a Lancaster California LA DPSS office is because of the statement made by my case worker on page ten of eleven. I am making a kind request for all these documents as you when I had previously discussed on the phone.

The name of the document that she sent is named:

Colaco, Robert -SOP, attachments and filing.PDF

I think it is important for you know that my first file name, had a date and time stamp of 20160216_1945 and the last having a date and time stamp of 20160216_2225.

So, it basically took me over 2 hours to do this document and deal with all the issues to get this document to you. I bring this up because I told you that it would take me hours, hours, and hours to be able to deal with all the issues that I believe that I would need to deal with for the administrative law judge that will hear the case.

If you have any questions whatsoever please do not hesitate to give me a call.

Dear "Mary Havey-Appeals Hearing Specialist" <MaryHavey@dpss.lacounty.gov>

I have in this document the history of my attempts to deal with the issue of paying you the rent and your response. They begin with the farthest back in time at the bottom of the document and work to the most current up at the top. I have included the header information but not the footer information (since that does not change).

Each communication is separated by the

Please answer the following questions:

Q1. Why have you not responded?

Dear To Whom It May Concern, Case 160070215:

Attached in this email is a document showing my excuse from "Work".

Today, I am having to go to Olive View Medical Center in a follow-up to the "Attached Document". The last time these symptoms presented themselves in the year 2011 I was hospitalized for a stay. Since I have no confidence that I will be available for my scheduled hearing date of February 01, 2016 at 2 pm I am asking that you set aside that hearing date. I will contact "GOV-Appeals & State Hearing Section-LAURA POS 8+18007438525".

The issue is related to my throat. I am UN-able to drink anything, eat anything [including take medication], or verbally speak including my use of Speech Recognition Software.

Please consider this my notice "I am asking that you set aside that hearing date."
